2019

# STE Global Annual Report

Helping People and Helping the Environment

---

## Year in Summary

Thank you to all of our generous donors and for everyone's support in making 2019 a great year for the environment and people that benefit from our programs. This report has the details of our top programs and accomplishments.

**Environmental Programs:** *Solar for All, EV Charging, Backup Power Education*

**Technology Programs:** *Computer Grants, Free Internet Access*

*STE Global is a 501(c)3 charitable organization. Donations and gifts are tax deductible to the full extent allowable under IRS regulations.*

---

---

## **Environmental Program Highlights**

### ***Solar for All***

Our team accomplished multiple solar installations that generate more than 15 megawatts of clean renewable energy per year. We also continued to advocate and educate people on the benefits of renewable energy. These installations serve to increase the penetration of DG (distributed generation) and pave the path to a cleaner, more sustainable future.

### ***EV Charging***

Our experts continue to advise, install and advocate for EV charging infrastructure in areas where underserved populations exist, such as office and apartment buildings. Having more penetration of EV charging helps create a cleaner environment by promoting the adoption of electric vehicles.

### ***Backup Power Education***

We educate and advise people on how to power devices and homes during power outages with PV and battery banks or their electric vehicles or cars using special inverters, without having to use noisy, polluting ICE generators.

## **Technology Program Highlights**

STE Globals' technology arm expanded programs to help people bridge the digital divide and use technology to not only better their lives, but the lives of their families and others as well.

### ***Computer Grants***

We provide computers specially setup for ease of use to get people comfortable with technology and that include ongoing support to a diverse population of people in need, including students, victims of DV (domestic violence) and people within the disabled population.

*STE Global is a 501(c)3 charitable organization. Donations and gifts are tax deductible to the full extent allowable under IRS regulations.*

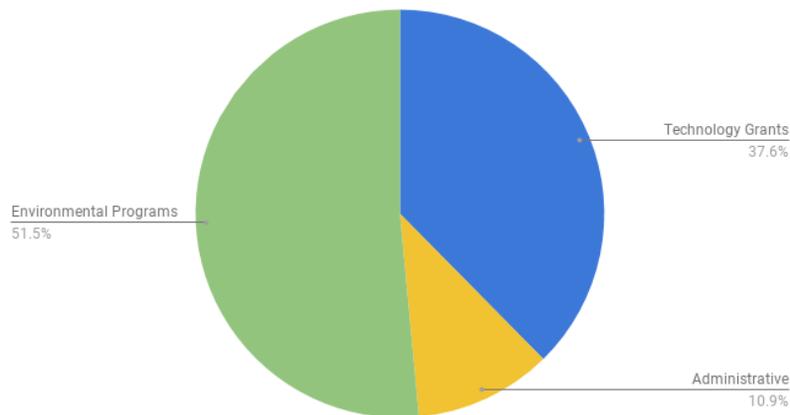

---

## Internet Access

Through our partnership with Mobile Beacon and Techsoup, we have been sponsoring free internet access. Recipients include students and families. People can quickly feel left behind without access to high speed internet - we bridge that gap.

## How were donations spent?

A little over half of every dollar went towards environmental programs, just over one third towards technology programs while about 11 percent covered administrative costs.

## 2020 and Beyond

A big thank you to all of our donors and partners that donated time and money to make our programs successful. For 2020 we look forward to expanding and enhancing our existing programs and adding new programs as well. Cheers to a wonderful 2019 and and even better 2020.
